

Tukwila Village/ Foster Library Comments:

Wonderful display &
very informative people.
Thank you so
much!

J & W Elrod

Tukwila Village/ Foster Library Comments:

* Like Commons Building

* Concerned that Community Activities for Commons Building ^{should be} ~~are~~ scheduled by the proposed non-profit board as discussed earlier - not the managing ^{element}

Tukwila Village/ Foster Library Comments:

Beautiful! Love it. Love the color.

Can't wait for the grand opening

time

Tukwila Village/ Foster Library Comments:

Ambitious, beautiful, and about time this happened.

Tukwila Village/ Foster Library Comments:

Library is too grey - outer building needs
more color. Seattle area is already so
dark and grey.

Tukwila Village/ Foster Library Comments:

Library colors are too dark

Tukwila Village/ Foster Library Comments:

This is exciting and looks great! My only request is to please, please, please get rid of the gray tones on the building exteriors. Its grey enough around here, so we dont need to add more drab!

There are so many beautiful, exciting colors that can be used that I don't understand why we would resort to blah grey. Please consider adding more vibrancy to the color scheme!

Tukwila Village/ Foster Library Comments:

It would be much better to continue the timeless, traditional look of the high school and current library to the west (brick facades) to tie this central street of the community together.

Tukwila Village/ Foster Library Comments:

Farmer's Market?

Natural Food Store?

Art Walks! yes.

Outdoor music / ethnic presentations

Senior Center + activities?

Tukwila Village/ Foster Library Comments:

Would like to see much more modulation
on the residential buildings — too boxy
as it is. Needs a softer, friendlier look.

Tukwila Village/ Foster Library Comments:

Same thoughts on the cement gray
bricks - they look too cold and sterile
That is N&D what we want for our
community - PLEASE! This has been
clearly expressed at previous meetings,
but seems to be being ignored.

Tukwila Village/ Foster Library Comments:

Dislike the corrugated metal siding.

It looks cold, industrial and sterile.

We need something that looks

warm and inviting, please. A brick

siding would continue the look of

the high school and existing library bldgs
