Public Safety Quarterly Information Brief

# 4<sup>th</sup> QUARTER CRIME STATISTICS

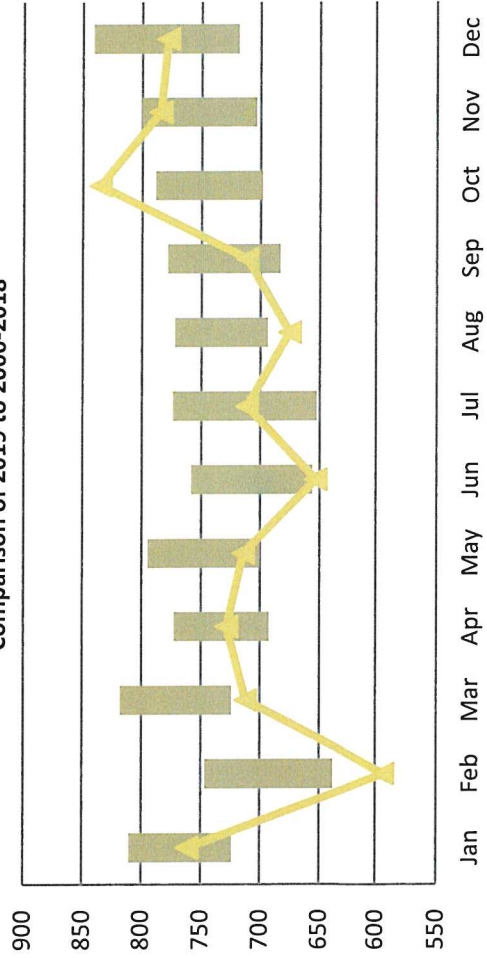

Calls for Service by Month  
Comparison of 2019 to 2002-2018

Calls for service and case reports both ended in similar ranges to previous years.

Residential burglaries ended with **nearly half** as compared to last year (**52 in 2019** and 102 in 2018). Over the past several years, residential burglary has dropped from a high of 211 in 2010. This trend is consistent in neighboring agencies as well, indicating a region-wide change.

Case Reports by Month  
Comparison of 2019 to 2000-2018

Auto theft is slowly creeping back up from overall lows in 2009. Deploying internal crime maps with a dashboard specifically for auto theft will help identify top locations. These maps and dashboards have been presented to command staff and will be presented to patrol in the first quarter of 2020.

[These charts show the current year (line with triangles) as compared to previous years (bar/rectangles). This gives perspective as to a normal range as calculated over the past years.]
