- ❖ Investigations: 2 homicides and 3 Valley Independent Investigation Team (VIIT) callouts
- ❖ PD Town Hall Meetings

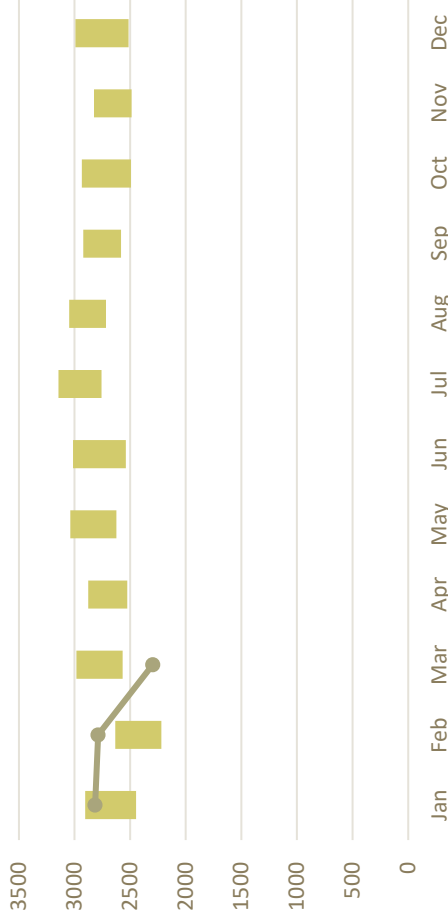

Public Safety Quarterly Information Brief

1st QUARTER CRIME STATISTICS

Calls for Service by Month
Comparison of 2020 to 2000-2019

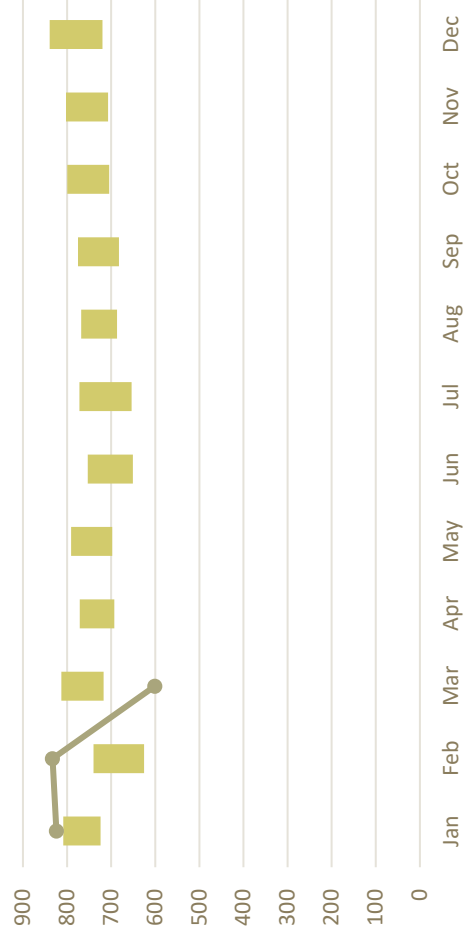

What started out looking like it might be a quarter with higher-than-usual numbers of calls for service and case reports ended with a worldwide pandemic response that included a state-wide stay-at-home order.

While there is an obvious decrease in calls for service in March, the quarter had more calls than Q1 of last year because of the increase in February. Case reports are the same, with more than Q1 of 2019. The closure of most retail stores and many hospitality venues has reduced activity in the retail area and that area is a driver of case report activity during normal times.

[These charts show the current year (line with triangles) as compared to previous years (bar/rectangles). This gives perspective as to a normal range as calculated over the past years.]
