SUBJECT: Neighborhood Traffic Calming Program

Project No. 82110301 2021 Status Update

ISSUE

Provide a status update for the Neighborhood Traffic Calming Program (NTCP).

BACKGROUND

The NTCP was adopted at the end of 2018 to address neighborhood concerns with traffic safety. The Council wanted to ensure that traffic calming safety decisions are based on technical engineering and applied in a uniform and consistent manner. With the funding changes in 2020/2021, the City's abilities to implement traffic calming strategies on residential streets and other safety improvements throughout Tukwila were greatly reduced.

DISCUSSION

When the NTCP was adopted 2018, staff had a list of 22 requests. To date, 72 individual requests have been made for traffic calming. Currently, there are 30 requests waiting for action, waiting for funding, or are reoccurring complaints that staff have left open for continued reference. With the possibility of some funding being restored in 2021 and/or 2022, Staff identified ten priority projects that could be completed with a dedicated budget. The staff recommended projects were selected to address priority concerns across many areas of the City and include some <u>proactive</u> projects around schools and the TCC.

FINANCIAL IMPACT

The attached table shows the Staff recommendations for implementation should funding be made available in 2021 or 2022 for the Neighborhood Traffic Calming Program. Potential treatment options are identified as well as an estimated cost range for each of the potential projects. Funding needed to accomplish the recommendations ranges from \$266,000 to \$538,000 in addition to staff time. Any additional funding would be used toward assessing the remaining requests and implementing any appropriate treatments.

RECOMMENDATION

Discussion only.

DATE: August 20, 2021

SUBJECT: Tukwila Community Center Exterior Painting Contract

Project No. 92130302

Issue

Award a contract with Long Painting Company to paint the exterior of the Tukwila Community Center.

Background

The Tukwila Community Center's siding was recently replaced in several areas around the building due to damage. The siding damage was the result of water intrusion over many years, due to inferior or absent flashing protection. Construction of the siding was physically completed on November 18, 2020. Painting the exterior of the Tukwila Community Center will protect and preserve the recently installed siding repairs.

Analysis:

Bids for the Tukwila Community Center Exterior Paint Project were received by three contractors. The bids were checked, tabulated, and no errors were found. Two of the contractors rescinded their bids due to full schedules through 2021. The remaining contractor was Long Painting Company, with a cost estimate of \$107,478, plus tax of \$10,855, for a contract total of \$118,333.28.

Financial Impact

Painting the Tukwila Community Center exterior is budgeted in the 2021 CIP through the 303 Fund. Long Painting Company has provided a cost estimate of \$107,478, plus tax of \$10,855, for a contract total of \$118,333.28. The contract costs fall within the project budget.

Recommendation

Council is being asked to award the contract with Long Painting Company in the amount of \$118,333.28 and consider this item at the August 23, 2021 Committee of the Whole Meeting and the Special Meeting Consent Agenda to follow that same night.

SUBJECT: Surface Water Fund - Riverton Creek Flapgate Removal Project

Project Number 99830103

Maintenance Agreement Authorization with WSDOT

ISSUE

Approve a 10-year maintenance agreement with the Washington State Department of Transportation (WSDOT) for the Riverton Creek Flapgate Removal Project.

BACKGROUND

The City's Riverton Creek Flapgate Removal Project, which is due to be completed in the fall of 2021, is being executed in accordance with a local agency construction agreement between the City and WSDOT since part of the area lies within WSDOT right of way (ROW). In the early months of 2021, plants were installed to restore vegetation at the project site. Actively managing the restored vegetation during the plant establishment period is critical to ensuring that the restoration is successful, our investments are protected, and grantee obligations are met.

DISCUSSION

Approximately two acres of native plant restoration are within WSDOT ROW. As part of the grant agreement with the State Recreation and Conservation Office (RCO) and the Salmon Recovery Funding Board (SRFB), the City has an on-going obligation to maintain the restoration project for a minimum of ten (10) years.

FISCAL IMPACT

Over a period of 10 years, maintenance costs are expected to be professionally contracted for a total of approximately \$100,000-\$150,000 over the life of the agreement. The overall project budget is sufficient to fund the additional maintenance costs. Grant funding opportunities to cover maintenance expenses will also be examined. By way of example, the City has been awarded grant funding for the last two years of plant maintenance at the Green the Green pilot CIP project through WRIA 9's *Regreen the Green grant program*.

INFORMATIONAL MEMORANDUM

TO: Transportation and Infrastructure Services Committee

FROM: Joel Bush, Chief Technology Officer

CC: Mayor Allan Ekberg
DATE: August 20, 2021

SUBJECT: Municipal Broadband Project

Department of Commerce Grant Request

ISSUE

Approve the submission of a grant application to the Department of Commerce Public Works Broadband Program for up to \$2,000,000 to fund the construction of a municipal LTE network using cellular technology.

BACKGROUND

The City of Tukwila Municipal Broadband Project will provide true broadband internet to City of Tukwila students and their families while they are within Tukwila city limits. Currently, the Tukwila School District equips 20% of its students with mobile hotspots and 23% of families are enrolled in the Comcast's Internet Essential Program.

DISCUSSION

Increasing broadband infrastructure will increase equity by reducing Tukwila's digital divide. Specifically, the project will construct monopole sites or small cells that will connect with the City's existing fiber network to provide broadband service to all City of Tukwila students and their families. The investment in municipal broadband will serve a foundation for future smart city investments.

FISCAL IMPACT

Preliminary cost estimates for this project are between 2,200,000 - \$2,650,000. The deployment of a municipal LTE network will also include recurring annual costs of \$220,000. \$130,000 for maintenance and software and \$90,000 for a dedicated internet connection. The total five-year project cost is anticipated to be \$3,738,434 for capital and reoccurring expenses.

The city has the opportunity to apply for up \$2,000,000 in funding from the Department of Commerce for Broadband Construction for capital costs related to the Municipal Broadband Project. No match is required for this funding opportunity. The Department of Commerce Broadband Construction call for projects is currently open. Applications are due by October 1, 2021, with projects awarded in November 2021.

This project is not currently funded, but Tukwila staff are in discussions with the Tukwila School District on cost sharing models to minimize financial impact to the City of Tukwila. Staff will also continue to research local, state and federal grants to support this project.

RECOMMENDATION

Committee is being asked to approve the submission of the grant application. Staff will brief the full Council on this grant opportunity and program concept at the September 13, 2021, Committee of The Whole.
