# CORONAVIRUS RESPONSE UPDATE

September 13, 2021

\* Denotes All New Content in the Section

## ESSENTIAL SERVICES AND CITY OPERATIONS

### \* Essential Services & City Operations

City Hall is currently open Mondays and Wednesdays from 9:00 a.m. to 12:00 p.m. The City Permit Center will be open Monday through Thursday from 8:30 a.m. to 12:00 p.m. Human Services is open for in-person services Tuesday and Thursdays from 8:30 a.m. to 12:00 p.m. All services remain available remotely. Masks are required at all times in City facilities. City staff that are able are encouraged to work remotely until January 3, 2022.

Total in-person customer volume for the weeks of August 16, 23, and 30, 2021, respectively:

- Permit Counter: 11, 11, 12
- City Hall: 9, 1, 7
- Human Services: 0, 0, 1

### \* Human Services

During the month of August, HS staff assisted 18 household (33 individuals). One Maple Crest household (two residents) was assisted with \$1,455 for their first month's rent. In August, residents were assisted with \$20,298.67 (\$5,658.67 utility and \$14,640 rent) in financial assistance. September information is listed in the graph below. Total spent in September \$14,556.12 (\$13,510 rent and \$1046.12 utility). Least amount of rent owing was \$300 the most over \$9,000.

The EPRAP 2.0 funds are actively being distributed to qualifying Tukwila residents through the Riverton Park United Methodist Church social work team. RPUMC partners and residents are sharing when they are assisted. We are able to correlate a reduction in City COVID funds being requested when EPRAP funds are being distributed.

Residents and landlords who applied for the EPRAP program can check their status by going to: <https://kingcounty.gov/depts/community-human-services/COVID/eviction-prevention-rent-assistance>

Source	Households Assisted/Ind	Funding Breakdown
General Fund Contracted Partners	3/6	Rent: \$2,320 Utility: \$140
Covid Rental & Utility Assistance	5/7	Rent: \$ 5190 Utility: \$ 906.12
Sewer/Water	0/0	
HB 1406 Rental Assistance	5/9	\$6000
Information from the community on total past due rent amount		\$500-\$1,200 = 8 \$1,250-\$3,500 = 11 \$3,600-\$4,000 = 5 Over \$4,000 = 4

### **\* Fire Staffing and Calls for Service**

There have been no changes to Fire staffing since the last report.

Please see attached Fire call volume report.

### **\* Police Staffing and Calls for Service**

There have been no changes to Police staffing since the last report.

Calls for Service:

- August 2020: 2577
- August 2021: 2843

### **\* Business Recovery**

#### *Business Re-Openings and Closings*

Washington's economy is open. Nearly all businesses and public spaces including restaurants, stores, offices, theaters, outdoor events, and other places can return to full capacity with no physical distancing requirements.

The Delta variant has been spreading rapidly even in King County. In King County during late August the average weekly rate of new cases was the highest since the start of covid-19 (except last winter). The average daily number of new hospitalizations was ten times higher than during late June. And, although the number of deaths in late August was significantly lower than during the start of the pandemic and last winter, it increased during the month.

On August 18<sup>th</sup> Governor Inslee announced a vaccine requirement for employees working in K-12, most childcare and early learning, and higher education, as well as an expansion of the statewide mask mandate to all individuals, regardless of vaccination status. The vaccination requirement also applies to workers of State agencies. Under the expanded mask mandate, every person (including customers and employees) is required to wear masks when indoors with someone from outside their household, however, there are exceptions. For example, the requirement does not apply to people who are working indoors by themselves or are vaccinated and only working with other employees. Businesses can adopt more stringent requirements. Under the Governor's Proclamation 20-25.15 businesses are prohibited from allowing customers to enter or remain in an indoor space in a business unless the customer is wearing a face mask.

Due to the surge in the Delta variant leading to high levels of new COVID-19 cases and hospitalizations and increasing deaths, on September 7<sup>th</sup> King County announced that it is working to develop a vaccine verification policy for some non-essential indoor business activities and other venues. According to the County, full details will be announced after engagement with community organizations, labor unions, businesses, and cities to gather feedback. The County is considering non-essential indoor and outdoor spaces where people gather in close proximity for a prolonged period of time. After finalizing the vaccination verification policy, unvaccinated residents would have at least five weeks to complete their vaccination series before the requirements of the proposed policy go into effect, likely in October.

#### *Business Assistance*

There are some government funding programs still accepting applications including the Economic Injury Disaster Loan (EIDL) program and the Small Business Flex Fund which offers low interest loans to small businesses. We anticipate that later this year the State will implement a \$50 million fifth

round of the Working Washington small business grant program. The State is also significantly limiting increases in unemployment insurance costs for businesses.

King County is distributing \$145 million of federal funds for residential rental assistance and eviction prevention to tenants and landlords through their Eviction Prevention and Rental Assistance Program (EPRAP).

Staff emailed all Tukwila businesses with information on the Delta variant and vaccination resources plus a webinar in multiple languages for small businesses who can apply for up to \$15,000 in federal grant money through the EIDL program.

*Unemployment*

The unemployment claims data report will be included monthly and was included in the packet of the August 23, 2021 Council meeting.

On March 11, 2021 the President signed the \$1.9 trillion American Rescue Plan Act. The law extended Pandemic Emergency Unemployment Compensation (PEUC), which is for workers who have exhausted all other benefits, plus the Pandemic Unemployment Assistance (PUA), which benefits people who do not qualify for regular unemployment such as self-employed people and independent contractor, for an additional 29 weeks. It also extended the Federal Pandemic Unemployment Compensation (FPUC) which provided an extra \$300 per week for eligible claimants who are receiving benefits from any unemployment program. Those expanded Federal benefits ended the week of September 4<sup>th</sup>.

Staff posted information on resources for job seekers on the City's website with promotions from the City's Facebook and Twitter accounts.

### Mobile Vaccination Team

The Tukwila Fire Department deployed its Mobile Vaccine Team (MVT) to provide COVID-19 vaccines and is focused on home bound and regional opportunities.

### \* Vaccine Update & Locations

There are many ways for community members to access the vaccine at no cost. Multiple appointments are available at sites in the area, as well as private opportunities. Visit [vaccinelocator.doh.wa.gov](https://vaccinelocator.doh.wa.gov) for location and appointment opportunities.

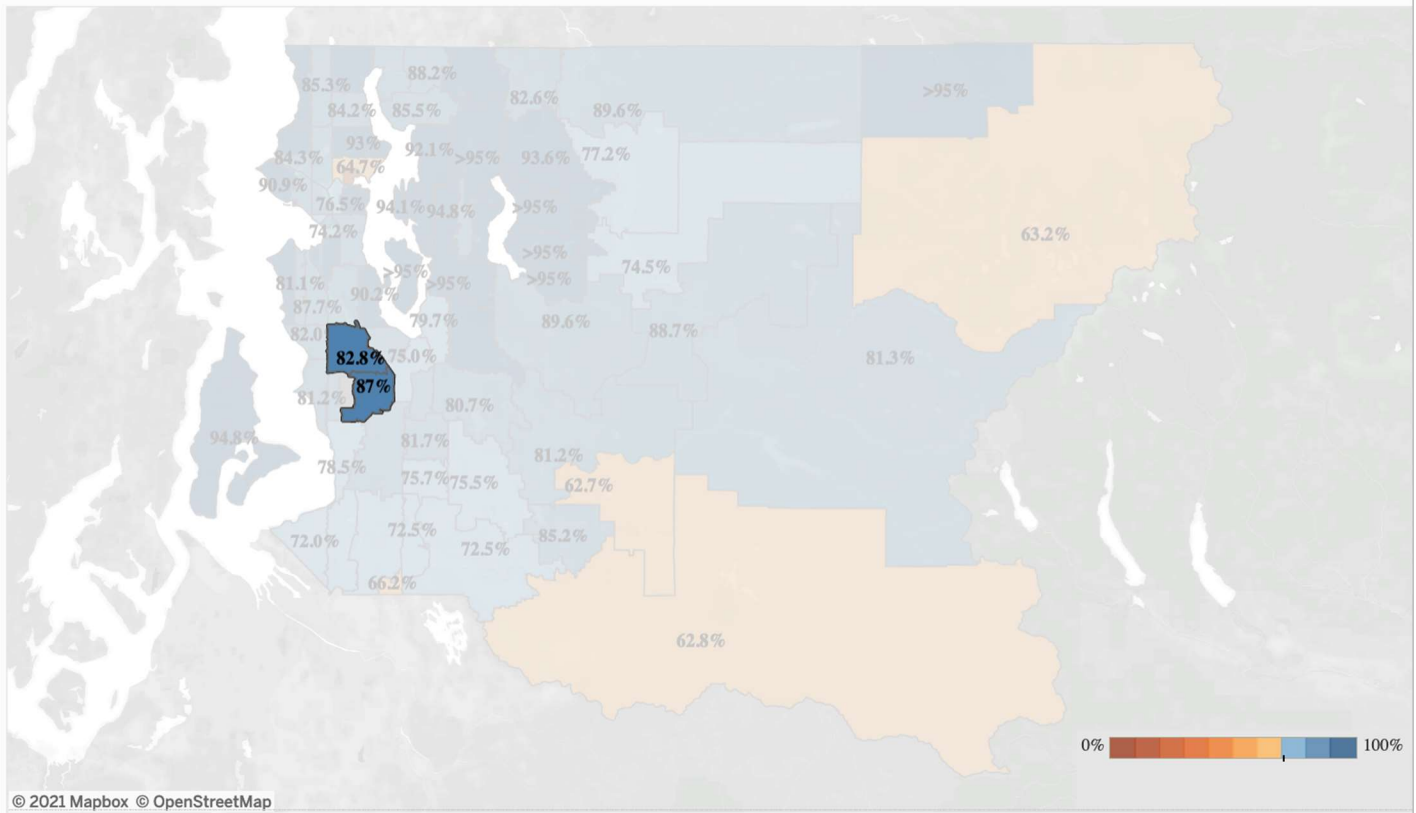

Vaccinations in King County as of September 7, 2021:

- 1 dose: 1,648,494 or 84.4%
- 2 doses: 1,526,902 or 78.2%

Below is a zip code map of vaccinations as of September 7, 2021 (percentage of population 12+ with at least one dose) in King County, with Tukwila's two zip codes highlighted:

- 98168: 82.8%
- 98188: 87.0%

### Map of KC residents who have at least one dose among ages 12+ years old

Below is a chart of vaccinations by region in King County. Note that South King County has a lower vaccination rate than many other areas in the county.

**Table of all KC residents who have at least one dose by age group and regions**

		12+ years old	12-19 years old	20-29 years old	30-39 years old	40-49 years old	50-59 years old	60-69 years old	70-79 years old	80+ years old

### \* COVID-19 Testing

The following are the number of individuals tested over the past week at the Church by the Side of the Road. This is a regional testing facility drawing individuals from across south King County. All testing locations in the region are seeing a significant surge in the number of people requesting tests. King County has contracted with off-duty officers to provide traffic management along Tukwila International Boulevard and Military Road to mitigate traffic impacts in the neighborhood.

- 9/7 – 875 individuals tested
- 9/6 – closed
- 9/5 – closed
- 9/4 – 544 individuals tested

9/3 – 599 individuals tested  
9/2 – 686 individuals tested  
9/1 – 633 individuals tested

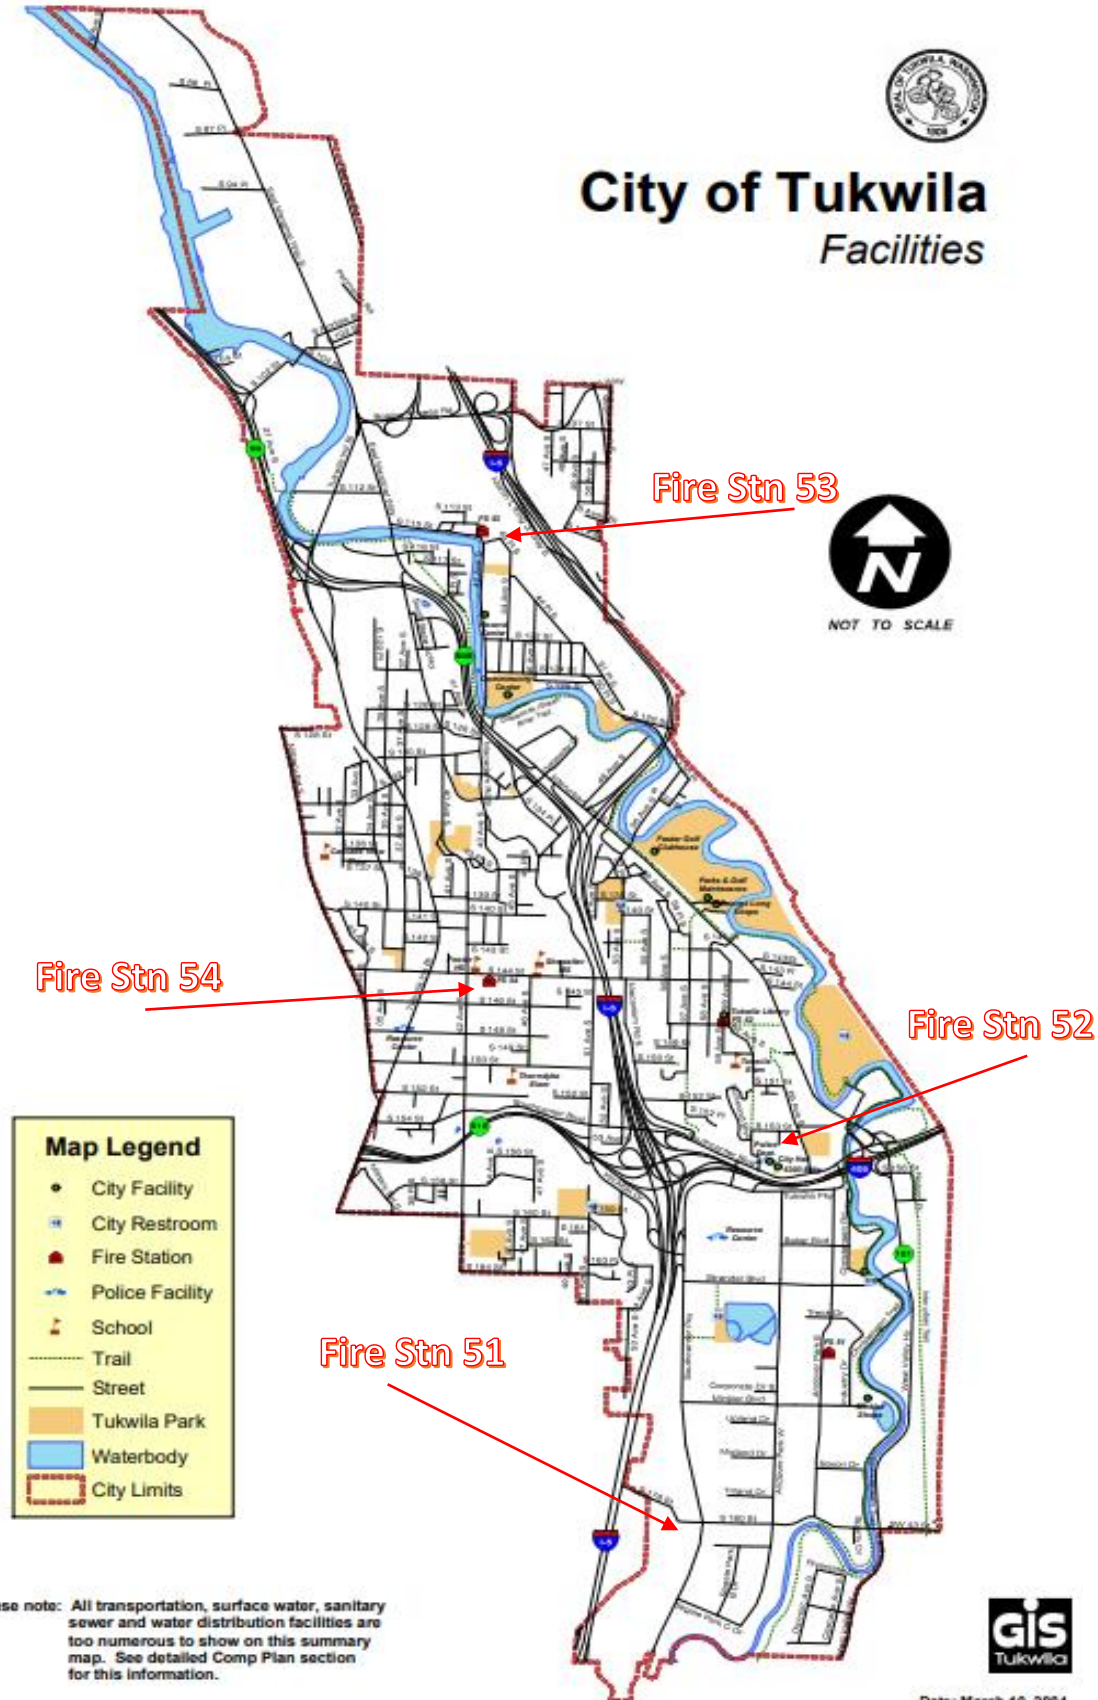

# Tukwila Fire Department Call Volume Report

August '21

## City of Tukwila Facilities

\* Please note: All transportation, surface water, sanitary sewer and water distribution facilities are too numerous to show on this summary map. See detailed Comp Plan section for this information.

Date: March 10, 2004

## % Change in Call Volume Metrics (compared to '16-'19 average)

## Synopsis of Above Metrics

1. **New since April 2021: this report compares current-year months with an average of the same month from 2016-2019.** For example, January 2021 is being compared to the 2016-2019 average January. The column “YTD” compares Jan-May 2021 with those same months from 2016-2019.
2. This report tracks the frequency of calls within each station’s geographic region. For any call that TFD is dispatched to outside of Tukwila city limits, “OSA” designates the Station area. OSA is an abbreviation for Outside Agency Assist.
3. Total TFD Call Volume in August ‘21 represented an increase of 36% compared to August ‘16-‘19. In other words, August ‘21 had 189 more calls than the recent average August from 2016 - 2019.
4. The August change in calls came from EMS (28%, +105 calls) and Fire (54%, +67 calls). August ‘21 had six “other” calls, all of which were Information-Only alerts.
5. Throughout this report the sum of EMS, Fire, and Service calls may not equal the “Total” number of calls for a given month. This is because there are a few infrequent call-types that either do not prompt a response (informational only) or do not cleanly fit into one of the three response types mentioned (for example: ALERT\*, or aircraft troubles). 2021, YTD, has averaged 2.88 such “Other” calls per month.
6. 2021 YTD calls have increased by 618 (13%) compared to the Jan-Aug 2016-2019 average.

### Additional notes:

1. Feb 2020 is a leap month with 3.57% more days than the previous three Febs.
2. Because of their infrequent occurrence, Fire and Service response calls are more subject to wilder “% Changes” than EMS responses. YTD, we’ve averaged just a few of these types of calls (combined) each day. An increase or decrease of just one of these types of calls per day would result in a change of about a third. This helps to explain some of the volatility in the graphs and charts.

The solid line on the following charts represents 2021 calls while the floating columns represent 2016-2019 data. The top of the column is the highest number of calls while the bottom is the lowest number. The red dot in the center of each column is the mean from 2016-2019 for each month.

# OSA Calls

2021 Compared to '16-'19

The deviations in Area 51 and 52 calls can partially be explained by the recent relocation of each station.

Of the five charts above, the last one depicting OSA responses is the most interesting. Tukwila firefighters have responded to an abnormally high number of incidents outside city limits in 2021 with a high percentage of visits to Renton, Burien, and SeaTac.

Aid Received	<i>No Data Available</i>			412	373	570

The above table shows the number of times Tukwila units were dispatched to assist with an incident outside our jurisdiction. The “Aid Given” is the total for each year while “Aid Received” is the number of times a non-Tukwila agency was dispatched to an incident within Tukwila’s jurisdiction. Year to date 2021, Tukwila is giving aid 1.3 times as often as we are receiving it compared to 1.4 for 2019 and 1.2 for 2020.

## OSA Assistance within Tukwila's Jurisdiction
