SUBJECT: ESRI Enterprise Agreement (EA) for GIS

ISSUE

ESRI Enterprise Agreement expiring on 01/15/2022.

BACKGROUND

The City of Tukwila has realized substantial growth in areas of GIS during the past 4 years with the Enterprise Agreement from ESRI providing the backbone. This proposal details the advantages of continuing the relationships and licensing for an additional two-year period.

DISCUSSION

The Council approved the purchase of a two-year Enterprise Agreement with ESRI at the end of 2017. In 2019, the Council approved continuation of the relationship by approving an additional two-year contract. The current contract is set to expire January 15, 2022.

During the past 4 years, GIS capabilities have been expanded and increased productivity has been realized. With limited staff resources in Tukwila's GIS division, it is imperative that end users have access to GIS resources, and that tools are built to engage end-users in self-service functionality, thereby increasing productivity. The ESRI EA allows this capability.

Success stories with GIS include but are not limited to the following.

Creation of a web viewer for the Municipal LTE grant application was instrumental in telling the story of the current digital divide in Tukwila. It clearly showed both where access is lacking and where fiber is available. This visibility highlighted and socialized the intrinsic need for digital equity, and provided answers to stakeholders when requesting letters for support.

During the 'Stay home, Stay Healthy' order in 2020, an interactive Web application was created for the 'Great Tukwila Carry-Out' program which assisted users in identifying pick-up and delivery options around the city, supporting both businesses and residents of Tukwila.

A current project to provide transparency and visibility on as-builts is being realized by providing a web viewer that staff can use to access electronically available as-builts, identified spatially in GIS and also accessible in the city's Laserfiche repository. Having the as-builts available on a GIS viewer will greatly reduce liability as they will be easily accessible to staff.

Throughout the city, multiple divisions are managing their workload with GIS tightly integrated with Lucity Asset management. A field map application is being developed for Public Works to further manage franchise work. Dashboards are being utilized in DCD for analyzing Code Compliance and Permitting. Digital Storymaps are available and allow users to author a web-based application that enables the ability to share maps in the context of narrative text in a user-friendly format.

Having the ESRI Enterprise Agreement in place has enhanced productivity and directly supported the businesses and residents of Tukwila.

Providing the Enterprise License Agreement is continued, additional opportunities will be realized.

FINANCIAL IMPACT

The Enterprise Agreement includes uncapped quantities of Desktop software and developer tools, 10,000 online service credits, 100 user named licenses for ArcGISOnline, and multiple software extensions.

The cost shown in the attached quote covers the two-year period for the ELA with training included in an amount not to exceed \$63,407. The total amount over two-years is budgeted in the current TIS budget.

RECOMMENDATION

The committee is being asked to consider the 2-year ESRI Enterprise Agreement in the amount of \$63,407 (total amount for two years, currently allocated in TIS budget) and forward this item to the November 15, 2021 Regular Meeting Consent Agenda.

Dear Tami,

The Esri Small Municipal and County Government Enterprise Agreement (SGEA) is a two-year agreement that will grant your organization access to Esri term license software. The EA will be effective on the date executed and will require a firm, two-year commitment.

Based on Esri's work with several organizations similar to yours, we know there is significant potential to apply Geographic Information System (GIS) technology in many operational and technical areas within your organization. For this reason, we believe that your organization will greatly benefit from an Enterprise Agreement (EA).

An EA will provide your organization with numerous benefits including:

- A lower cost per unit for licensed software
- Substantially reduced administrative and procurement expenses
- Complete flexibility to deploy software products when and where needed

The following business terms and conditions will apply:

- All current departments, employees, and in-house contractors of the organization will be eligible to use the software and services included in the EA.
- If your organization wishes to acquire and/or maintain any Esri software during the term of the agreement that is not included in the EA, it may do so separately at the Esri pricing that is generally available for your organization for software and maintenance.
- The organization will establish a single point of contact for orders and deliveries and will be responsible for redistribution to eligible users.
- The organization will establish a Tier 1 support center to field calls from internal users of Esri software. The organization may designate individuals as specified in the EA who may directly contact Esri for Tier 2 technical support.
- The organization will provide an annual report of installed Esri software to Esri.
- Esri software and updates that the organization is licensed to use will be automatically available for downloading.
- The fee and benefits offered in this EA proposal are contingent upon your acceptance of Esri's Small Municipal and County Government EA terms and conditions.

- Licenses are valid for the term of the EA.

This program offer is valid for 90 days. To complete the agreement within this time frame, please contact me within the next seven days to work through any questions or concerns you may have.

To expedite your acceptance of this EA offer:

1. Sign and return the EA contract with a Purchase Order or issue a Purchase Order that references this EA Quotation and includes the following statement on the face of the Purchase Order:

"THIS PURCHASE ORDER IS GOVERNED BY THE TERMS AND CONDITIONS OF THE ESRI SMALL MUNICIPAL AND COUNTY GOVERNMENT EA, AND ADDITIONAL TERMS AND CONDITIONS IN THIS PURCHASE ORDER WILL NOT APPLY."

Have it signed by an authorized representative of the organization.

2. On the first page of the EA, identify the central point of contact/agreement administrator. The agreement administrator is the party that will be the contact for management of the software, administration issues, and general operations. Information should include name, title (if applicable), address, phone number, and e-mail address.
3. In the purchase order, identify the "Ship to" and "Bill to" information for your organization.
