FOURTH QUARTER CRIME STATISTICS

Calls for Service by Month
Comparison of 2024 to 2000-2023

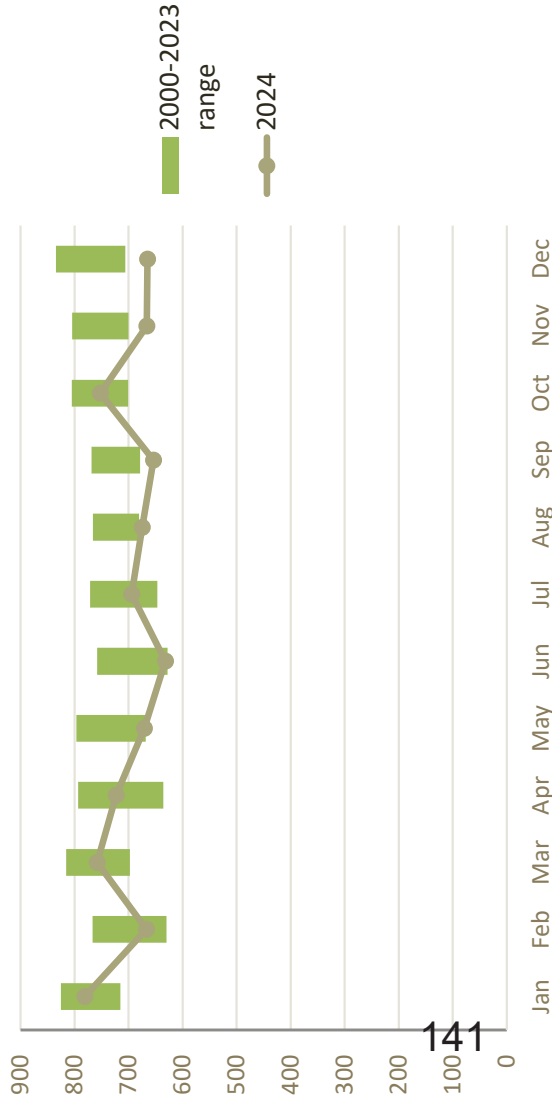

Calls for service in the fourth quarter were within range.

Case reports (online and officer-created) in the fourth quarter are still lower than expected, primarily due to decreases in theft from vehicle, auto theft, and commercial burglary cases.

Crime was down in several categories this year, including those stated above plus residential burglary which hit an all-time low.

Case Reports by Month
Comparison of 2024 to 2000-2023

One crime category that increased was aggravated assault, which is primarily due to an increase in felony domestic assaults. There were 84 aggravated assaults in 2024, the highest number since 2014.

One benefit of better staffing is that new detectives will be assigned missing persons cases, taking them off the plate of the detective who primarily investigates felony domestic assaults.
